

Adding an **INSITE** shortcut to your homescreen for **android**  users.

1. Launch the Google Chrome web browser on your phone or tablet.
2. Enter <https://insite.dynamarkmonitoring.com> into the address bar and load the page.
3. Tap the three dots at the top right corner of the web browser.
4. Tap, “Add to Home screen”.
5. Type, “InSite” as the name for your shortcut in the pop-up window. This will appear as the title below the icon on your Home screen.
6. Tap, “Add”.

The shortcut will appear in the next available space on your device’s Home screen. To move it like you would any other app, tap and hold its icon and drag it to your desired location. Then release the icon, and your new InSite web app is now ready to use.
