

Adding an **INSITE** shortcut to your homescreen for  iOS users.

1. Launch the Safari web browser on your iPhone or iPad.
2. Enter <https://insite.dynamarkmonitoring.com> into the address bar and load the page.
3. Tap the Share icon (the square with an arrow pointing out of it) at the bottom of the screen.
4. Scroll down to the list of actions and tap, “Add to Home Screen”. (If you don’t see the action, scroll to the bottom and tap, “Edit Actions”, then tap, “Add” next to the “Add to Home Screen” action. After that, you’ll be able to select it from the Share Sheet.)
5. Type, “InSite” as the name for your site link. This will be the title that appears beneath its icon on your Home screen.
6. Tap, “Add” in the top-right corner of the screen.

The shortcut will appear in the next available space on your device’s Home screen. To move it like you would any other app, tap and hold its icon, then tap, “Edit Home Screen”, then drag it to your desired location. Once placed, tap, “Done”. Your new InSite web app is now ready to use.
